CPT II Codes and HCPCS Billing for Medicare Advantage

CPT II and HCPCS Code — Closing Gaps in Care

Submitting CPT Category II codes and HCPCS codes improve efficiencies in closing patient care gaps and in data collection for performance measurement. When you verify that you performed quality procedures and closed care gaps, you're confirming that you're giving the best of quality care to our members. Wellcare has made a change to CPT II code payment to assist in the pursuit of Quality.

Wellcare has taken steps to help ensure submissions pass through clearing house without issue for the following select CPT II and HCPCS codes to the Medicare fee schedule at a price of $0.01. This simple step allows billing of these important codes without a denial of "non-payable code."

How does this help you, our Providers?

- ✓ Reduces dropped codes and denied claims due to non-payable codes.
- ✓ Lessens the administrative burden for providers by reducing chart collection/ medical record submissions.
- ✓ Drives data capture which increases Payment for Quality (P4Q) incentive allocation.
- ✓ Improved reporting of open and closed care needs.

What measures do these codes apply to?

- ✓ Controlling Blood Pressure (Including Diabetics)
  - Blood pressure results
- ✓ Comprehensive Diabetes Care
  - Blood pressure results
  - HbA1c levels
  - Diabetic Retinal Eye Exams
- ✓ Advance Care Planning
- ✓ Care of Older Adults
  - Functional Status Assessment
  - Medication List and Review
  - Pain Assessment
- ✓ Medication Reconciliation Post Discharge
  - Medication List and Review after hospital discharge
